

Electrical Parts for Forklifts

Forklift Electrical Parts - Lift trucks may be specifically labeled for use in dangerous locations. A marked truck indicates the design has met the minimum standards of ANSI/UL 558 meant for engine powered forklifts or ANSI/UL 583 intended for electric forklifts for the type of label put.

The application for labels utilized for lift forklifts could be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance provider and Fire Marshall for more information about the approved uses of industrial powered trucks in your application.

If the certain forklift satisfies the outlined standards, labels could be put. A labeled lift truck would show the type of designation put on the nameplate and would have a correctly corresponding label attached.
